Subject: Brownsville-McAllen Assessment

I would like to bring to your attention the extraordinary effort put forth by Fred Beasley, Rob Scott and the Hub Texas team in putting together a Market Assessment of the Brownsville/McAllen, TX area to help Union Pacific determine if opening a paper ramp in the area is a worthwhile investment.

We at Union Pacific that have reviewed the document are very appreciative of the detailed Market Assessment, and can say it is the most impressive and thorough document that has come to us. If it is determined that this area will become part of UP's Out Reach Program it will be well known at Union Pacific that the Hub organization played a big part in helping us to determine the outcome.

Once again from all of us at Union Pacific, we would like to thank Hub for the effort.
